MSP-Demo THREATDEFEND FOR FINANCIAL SERVICES

SECURING FINANCIAL DATA. MAINTAINING COMPLIANCE. BUILDING CLIENT CONFIDENCE.

Top Cybersecurity Threats Facing Financial Services SMBs

- 1 Business email compromise and wire fraud
- 2 Ransomware targeting sensitive financial data
- 3 Insider threats and privileged account abuse
- 4 Gaps in cloud security and misconfigured systems
- 5 Regulatory compliance failures (e.g., GLBA, PCI DSS)

Pain Points

Financial Services

- ✓ High-value targets for cybercriminals
- ✓ Complex compliance landscape and regulatory scrutiny
- ✓ Need for 24/7 monitoring across hybrid environments
- ✓ Inadequate internal cybersecurity staffing

Why It Matters

According to the 2025 CrowdStrike Global Threat Report, financial services remains one of the most targeted sectors. MSP-Demo ThreatDefend helps protect your firm from reputational damage, regulatory penalties, and financial losses.
